

I live in Morro Bay. One of the two or three stations we can receive here is KPIG 94.9 FM. On several occasions, a specific DJ has been playing extreme racial "comedy" bits. These have included racial epithets shouted in hatred (Ni\*\*er, Spear chucker, jungle bunny, etc). I emailed the DJ himself and got no reply. I went on to explain my concerns to the program director. After admitting that indeed they do play such things, she refused to address the issue. The same DJ is still playing the same racist bile. The program director told me that my concerns are neither "tragic or important". I have copies of all email communications if you are interested. I find it outrageous that on broadcast radio in a small community that racism is promoted in such a blatant manner. I had hoped for the removal of the bigoted DJ ("Martin") or at the very least an apology. Instead I have been tossed aside as a non-issue. Is there anything I can do to get this vitriolic hatred off of my community airwaves? I am available both through my email or phone: (805) 772-3050. Thank you very much.
